

IMBHIZO HOLDINGS

MISSION STATEMENT

To ensure that Imbhizo Holdings (Pty) Ltd continues to grow community-based projects, and implements cost-effective gravel road solutions throughout rural South Africa.

To continue to provide a patented solution, by utilising Marine 3 in all of its product combinations – Marine 3 is the patent of Imbhizo Holdings' technological partner, Mosmart Investments (Pty) Ltd.

To nurture Imbhizo Holdings' partnership with Mosmart Investments, to guarantee that the products used in gravel road solutions remain environmentally friendly.

To continue to uplift local communities through skills transfer and job creation.

VISION

To be the choice service provider of gravel road solutions which transform not only the quality of roads, but also quality of life for local communities across rural South Africa.

COMPANY BACKGROUND

Imbhizo Holdings is a black-owned company which offers an all-in-one gravel road solution.

2nd Floor, 1B Stewart Drive, Berea, East London, 5241 • Telephone: 043 721 0888 •

IMBHIZO HOLDINGS (PTY) LTD COMPANY PROFILE

Imbhizo Holdings was founded by its current directors - Zolani Ngange, Zikhona Dilima, Danie de Villiers and Gregory de Villiers - in response to the lack of an economical, time-efficient alternative to building and laying tar roads.

In order to provide a cost-effective gravel road solution, Imbhizo Holdings joined forces with Mosmart Investments (Pty) Ltd, its technological partner. Mosmart Investments holds various patents in respect of products, and licenced product blends. Site-specific combinations of these products are used in stabilising and transforming existing gravel roads

By filling this gap in the market, Imbhizo Holdings has opened up the possibility for those rural communities - deprived of the use of well-built, safe roads - to reap the benefits of implementation of the road gravel solution.

These advantages include skills transfer; job creation; the use of solid, smooth, and safe roads; a sizeable reduction in airborne dust; and a decrease in motorised travel time along transformed roads.

Collectively, the board and regional general managers of Imbhizo Holdings have extensive experience and qualifications in various industries, which include construction, road building, accounting and traditional affairs. It is these skill-sets which enable Imbhizo Holdings to offer an all-inclusive gravel road solution.

COMPLIANCE

Company Registration No 2015/398073/07

BEE Level 2

LOCATION

Imbhizo Holdings is able to implement its gravel road solution in respect of any rural gravel road in South Africa, out of its head office, and agents' offices – located in all the major metropolitan areas.

SCOPE OF SOLUTION

Imbhizo Holdings offers the most cost-effective and time-efficient gravel road solution for roads located across rural South Africa.

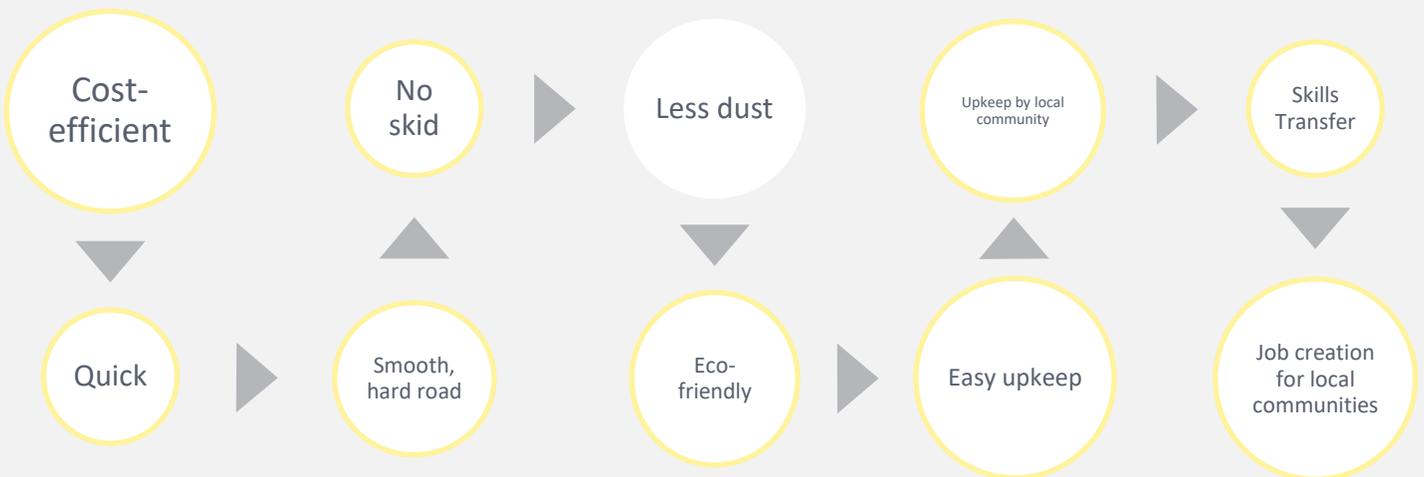

Through the use of Mosmart Investments' patented product, Marine 3, and its licensed (and non-licensed) blends of product, Imbhizo Holdings is able to transform any gravel road into a safe, smooth, dust-free and durable surface, regardless of the type of local aggregate of which it is comprised.

The process of transforming the road is extremely fast, thereby outstripping Imbhizo Holdings' competitors which offer similar, but time-consuming solutions.

The solution also out-performs Imbhizo Holdings' competitors from a cost perspective, which is made possible through both the structuring of the solution as well as Imbhizo Holdings' reliance on Mosmart Investments' unique products.

Worked into the solution is the maintenance of the transformed road. The maintenance is carried out by a local SMME, which is trained, and thereafter supplied with all the necessary equipment, by Imbhizo Holdings. The SMME receives remuneration for performing the maintenance.

It is evident that this unique gravel road solution can revolutionize road quality and quality of life; and at the same time, cut costs and greatly accelerate road transformation.

IMBHIZO HOLDINGS BROAD-BASED BLACK ECONOMIC EMPOWERMENT

Imbhizo Holdings is a proudly South African, black-owned entity. It is the proud holder of a level 2 B-BBEE certificate.

From a compliance perspective, Imbhizo Holdings observes and endeavours to abide by the Codes of Good Practice, issued in terms of the Broad-Based Black Economic Empowerment Act, 53 of 2003.

Otherwise, where possible, Imbhizo Holdings focuses on BEE with particular regarding to BEE procurement, skills development and social responsibility.
